## MESSAGES TO THE PUBLIC

### *Dear Friends:*

Welcome to the California Lottery's annual report. This report details the Lottery's financial highlights relating to sales, educational revenues, and administrative expenses.

Since its inception in 1985, the California Lottery has played a valuable role by providing more than \$14 billion of supplemental funding to California's K-12 schools, colleges, and universities and by bringing additional revenue to California businesses.

I am proud of the accomplishments made by the California Lottery and its ongoing support of public education. Recently, I was pleased to announce that the Lottery's 2001-2002 contribution to public education totaled over \$1.06 billion, the second highest annual amount in the Lottery's 17-year history.

Through its ongoing programs, the Lottery has worked to make a positive difference in both education and business communities throughout the Golden State.

On behalf of the people of the State of California, I encourage you to explore this report and discover the many ways we are working to respond to the needs of California's schools, businesses and Lottery customers.

Sincerely,

Gray Davis

Governor

State of California

### *Dear Californians:*

Once again, I am pleased to report that the California Lottery has achieved record-breaking sales, which resulted in over \$1 billion in contributions to public education. This accomplishment was made possible due to the outstanding efforts of our retailers, vendors and staff, as well as your response to our products. The more than \$1 billion raised for our state's public schools marks the second highest annual amount generated in the Lottery's 17-year history. This past year's sales reached nearly \$2.9 billion, built on the strong purchases of

Scratchers® and SuperLotto Plus products. Last February, we reached a SuperLotto Plus jackpot of \$193 million, which ranked as the largest single state jackpot in U. S. lottery history. This jackpot was split among three lucky tickets, each worth \$64.3 million.

I encourage you to read this Report to the Public and learn just where funds raised by the Lottery actually go. The money generated is transferred to the education fund and is subsequently distributed among the state's kindergarten through twelfth grade schools as well as public colleges and public universities. While Lottery funds make up only a very small piece of the overall money needed to run our education system, your locally elected school officials make the specific decisions on how to use the Lottery funds. In addition, Proposition 20 (passed by California voters in March 2000) mandated that \$114 million of this year's revenues be used for the purchase of textbooks and other learning tools.

While we are proud of our accomplishments thus far, we know just how important it is to plan for future implementation of programs designed to maintain the level of funds being raised for education. Our business plan for the coming year includes the installation of new state-of-the-art equipment, including more cost-efficient wireless communications and improved retailer capabilities, which translate to better service and efficiencies for you — our customers.

Our goal is to continue to give our players fun and entertaining products. We have recently seen big successes with entertainment-themed Scratchers® such as the Elvis game, the California Treasures game, and the upcoming Top Dog tickets featuring real California dogs. During the coming fiscal year, we are planning to introduce Bingo and NBA-themed Scratchers® games.

Under the leadership of the California Lottery Commission, Lottery staff are committed to the important task of generating as much revenue as possible for California's schools through entertaining products. I hope that you enjoy this annual report and continue to join with us in support of California's public education system.

With best regards,

Joan Wilson

## Scratchers® Game Development

Scratchers® sales goals are established each year. Lottery staff carefully review and develop themes, prize structures, and unique playstyles. Higher sales are the result of higher Scratchers prize payouts which result in higher education contributions.

Scratchers®

## Distribution

Lottery Scratchers® games are distributed from two distribution warehouses to more than 19,000 retailers statewide. The California Lottery developed 28 new Scratchers games last year. At least 35 themes are available for retailer orders on any given day.
